

GROWING ASSISTANT

Growing Assistants will work as part of our Community Food team, with experienced growers to improve citizen access to growing spaces and provide skills & knowledge to grow food.

Working with people in deprived communities across Birmingham, they will help identify and take over growing spaces, building communities around them. They will develop horticultural skills and help citizens learn how to grow their own nutritious food. They will work with a number of sites within a geographical area and will develop organisational skills, ensuring equipment is maintained and time critical tasks are undertaken

This role is based in the community and you will need to be able to travel across the city.

Please send a 3 minute video via WhatsApp to 07039664330 explaining why you want to work with The Active Wellbeing Society and what you hope to achieve.

Include your name, email address and home address in the text
